Endless installation options

DRU electric fires are available in several shapes and styles. Installation can be done anywhere, think of terraced houses, apartments but also hospitality establishments, restaurants and hotels. Unique benefits:

- No chimney or flue required
- Chimney breast or surround possible in all conceivable materials
- Very low energy consumption and super safe

DRU Evolve range Oval and Virtuo

In addition to the Oval Evolve, the Evolve range includes the Virtuo Evolve electric fires. Available in 4 different sizes and with 3-sided, 2-sided and front fire views.
This means there is always a model that fits perfectly into your interior.

Oval Evolve

Fire made
for living

Unique and stylish
design

The distinctive design of the Dik Geurts Oval is evolving into electric. The Oval Evolve has the same iconic oval shape and robust appearance, combined with lifelike Evolve-Flame technology. This brings together the character of the familiar Oval with the comfort and convenience of an electric fire.

The ultimate
electric
fire experience

Thanks to its unique projection technology, Evolve creates an exceptionally realistic fire display with lifelike wood flames, an atmospherically-lit ember bed and optional crackling fireplace sounds.
The Clear View+® anti-reflective glass ensures an optimal view of the flames. For anyone who wants to experience the atmosphere of a real wood fire, but prefers the convenience of electric.

Ultra-realistic flame image
Lifelike wood flames that are almost indistinguishable from the real thing.

Low-maintenance
As it is electrically operated, virtually no maintenance is required.

Plug & play system
A single power socket is all you need.

Control
Easy to control using the remote control or DRU Fire app.

Sound
Enjoy the crackling sounds of a wood fire.
